

# KEYGUARD

Available  
in  
Red or Green

## FEATURES

- SNATCH OFF PLASTIC LID.
- INTEGRAL ELECTRONIC ALARM.
- CAN BE WIRED TO EXISTING FIRE OR SECURITY SYSTEMS.

## KEYGUARD

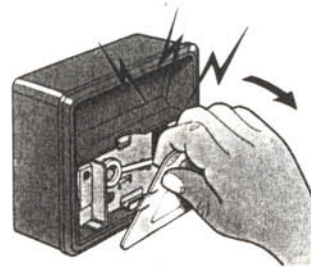

is a custom designed plastic box to which a clear plastic window can be fitted in order to retain a key or access control card. A recess enables the operator to remove the window in an emergency to retrieve the key. On some models, when the lid is removed an integral electronic sounder warns others in the vicinity that the key security has been breached. The lid is designed in such a way that it cannot be re-fitted after removal.

## ADVANTAGES

- SPECIALLY DESIGNED NON HAZARDOUS PLASTIC LID.
- SOUNDER ALERT BEFORE KEY IS REMOVED.

## USES

- FIRE EXIT DOORS
- FILING CABINET KEYS
- COMPUTER ROOMS
- ACCESS CONTROL SYSTEMS
- MASTER KEYS FOR COMPUTERS ETC
- RESTRICTED ACCESS AREAS

**INSTALLATION**

The Keyguard can be mounted in any desired orientation to enable the lid to be removed with a downward, upward or sideways action. The main body is a one piece moulding therefore flush fitting is simple to achieve.

The Keyguard is available in three different versions to satisfy various requirements
